FDA/Office of Women's Health

Silver Spring, MD

The U.S. Food and Drug Administration Office of Women's Health addresses the health issues of the nation's women by funding scientific research, collaborating with national organizations to sponsor outreach efforts, and disseminating free publications on a variety of topics including diabetes, medication safety, hypertension, medicine and pregnancy, and health scams.

Indivior, Inc.

Richmond, VA

The flyers advertise our Online Graduate Programs in Addictive Behaviours which are offered in partnership with Turning Point and Monash University, Melbourne. The courses are all online and thus suitable for students living overseas. Turning Point is a national treatment, research and education centre in Australia that provides leadership in the alcohol and drug, gambling and mental health sectors. It is part of Eastern Health (State health organization) and is affiliated with Monash University both non-profit organizations.

Instech Laboratories

Plymouth Meeting, PA

The Instech logo features the word "INSTECH" in a bold, white, sans-serif font, centered within a dark blue rectangular background.

Instech is a leader in laboratory animal infusion and sampling products, including systems for IV self-administration. Vascular Access Harnesses™ and Buttons™ simplify connection of tethered mice and rats. PinnPort™ streamlines access to externalized catheters. ABS2™ automates blood sample collection. Plastic feeding tubes minimize trauma during oral gavage.

KYOUÍ

Las Vegas, NV

Having good overall health is part of WELLNESS and in order to achieve optimal overall health we need to have excellent oral health.

Kyoui is a manufacturer of a unique patented device created to control and prevent periodontal disease that affects 75% of Americans leading to several systemic diseases such as pancreatic cancer, stroke, cardiovascular disease, bowel inflammation etc.

The first part of our body that is affected by drug addiction is our mouth, Kyoui helps recovering patients to take better care of their oral health.

"A person can't have good general health without good oral health."

-Former Surgeon General, Dr. C. Everett Koop
