### Visiting Research Mentor Development

## ABOUT SARET

The NIDA-funded Substance Abuse Research Education and Training (SARET) program fosters health professions students' lasting engagement in substance use disorder (SUD) research. SARET uses a modular web-based curriculum and mentored research placements to activate doctoral and masters level students' interest in SUD-related research careers. An interdisciplinary initiative, SARET trains future physicians, nurses, dentists, social workers, and public health professionals.

## MENTOR DEVELOPMENT

### Become a SARET champion at your institution

Participating in SARET's mentored research experience has an enduring impact on trainees' interest in SUD research. To develop this capacity at your institution, NYU is accepting applications for SARET's **Visiting Mentor Development Program**.

Spend a week in NYC training to be a SARET champion at your institution. Mentors will receive ongoing technical assistance and guidance, tailored to their institutional context, to help develop related programs at their schools.

## PROGRAM DETAILS

**DATES:** June 11-14, 2019

**LOCATION:** New York University

**COST:** Tuition and ongoing mentorship is free. Applicant must cover travel costs.

**ELIGIBILITY:** Applicants should meet the following criteria to apply:

- 1) Evidence of interest in substance use disorders and research
- 2) Commitment to and experience teaching
- 3) Letter of support from home institution
- 4) Must represent one of the following health-related professions: medicine, dentistry, nursing, social work or public health

Applications will be accepted on a rolling basis between **February 15 - April 1, 2019**. Visit [tinyurl.com/VMDPsaret](http://tinyurl.com/VMDPsaret) to apply!

### Sample calendar for the 4-day intensive mentor development program

	Day 1	Day 2	Day 3	Day 4
AM	Travel	Goal setting/learning plans (MaO)  Personal Impact: module discussion /12 step meeting debrief (MaO)  Research presentations/posters: background and methods (MaO)	Mentor/mentee relationship 2 (MaO)  Common challenges in research ethics: informed consent and industry relationships (MaO)  Mentor development Part 1 (mentors only)	Challenges in research ethics (MaO)  Mentor development part 2 (mentors only)  Technical assistance: integrating SARET at your home institution (part 2) (mentors only)
PM	Welcome and Goal-setting (mentors only)  Mentor/mentee relationship 1 (MaO)  Lecture: Challenging cases and the path from practice to research (MaO)  Overview of the SARET web modules (mentors only)	Neurobiology of SUD: module discussion and lecture (MaO)  Teaching key skills: forming research questions, literature searches, collaborative writing (mentors only)  Effective literature searches and reference management tools (MaO)  Identifying local SUD resources: mentors and site visits (mentors only)	Epidemiology of SUDs : module discussion and lecture (MaO)  Research presentation: Screening for SUDs (MaO)  Research presentations/posters: data representation and conclusions (MaO)  Technical assistance: integrating SARET at your home institution (mentors only)  Reception w/ past participants and mentors-including sample poster presentations (MaO)	Individual coaching session (mentors only)  Feedback/Focus group (mentors only)  Wrap-up  Departure
<b>Legend:</b> <ul style="list-style-type: none"> <li>• All = SARET summer student participants + visiting mentors</li> <li>• Mentors as Observers (MaO) = students + visiting mentors, but mentors participating as observers only</li> </ul>
