

RESEARCH INTERVIEWER! FOR CLINICAL TRIAL NEEDED!

- Seeking a Research Interviewer for our National Institute of Mental Health & National Institute on Drug Abuse funded clinical trials in Connecticut.
- Position involves conducting research interviews in the Bridgeport and New Haven areas.
- The clinical trials are for a new treatment for young adults with mental illness and/or substance abuse and arrest histories.
- Research participants include 16-26 year olds and collateral informants (e.g., parents, friends).
- Interviews are conducted in the community (e.g., homes, local libraries).
- *Great opportunity to refine community-based interviewing skills and be part of an important new study!*

TIME COMMITMENT

20-30 hours of paid training
15-20 hours per week
Daytime/Evenings/Weekends

REQUIREMENTS

BA/BS + 1-year relevant experience, or 5-years relevant experience (e.g. clinical skills, research interviewing, mentoring troubled youth)
Provide own vehicle
Must be available mornings, afternoons and weekends

ESTIMATED EARNINGS

\$25 per hour
Plus travel reimbursement (federal mileage; must provide own vehicle & insurance)
Research cell phone is provided

If interested, send resume to **Rachael Perrault**, rachael.perrault@umassmed.edu

This research is a collaborative effort between the Department of Psychiatry, University of MA Medical School, Oregon Social Learning Center, and North American Family Institute.
